

**MES Center for Product Development and Analytical Testing [CPDAT]: A
Unique Extension Activity at College Level Since 1999 having Industrial
Applications of knowledge of Chemistry**

Projects completed under CPDAT

- Agrevo, Germany – Anti-juvenile hormones for field trials
- Specs, Holland – About 100 compounds for testing various Biological Activities
- YuSayWin, USA – Dyes and dye intermediates (15 compounds)
- Cancer Research Center, Maryland, USA – Samples tested for of anti-AIDS activity
- Auro Pharmaceuticals, Pune – Various Pharmaceutical Intermediates
- Deepak Nitrite, Pune – Fine Chemicals
- A. J. Organica, Pune – Industrially Important Chemicals

During 2004 – 2009 following projects were successfully completed.

Sr. No.	Name of Company	Type of work
1	Synergy Biopharma, Pune	Cattle feed preparation
2	Maitreya Polymers, Satara	Process for polymer intermediate is developed
3	Know Chem, Pune	Drug intermediate
4	Vartaki Tapkir, Pune	Analysis
5	Cadmocil, Latur	An intermediate
6	SCE, Pune	Analysis of coolant
7	Specs, Holland	Compounds submitted for biological screening
8	Deepak Nitrite, Pune	Impurity identification
9	Dr. J. Pharma Chemicals, Pune	Process development
10	Auro Pharma, Pune	Drug intermediate
11	Cadmocil, Latur	An intermediate

Revenue worth of Rs. 1, 50,000/- was generated during this period.

Ongoing project: Wanbury Ltd., Mumbai – Process development for drug intermediate
